1. The following is an examiner's statement of reasons for allowance: The claims have been allowed because claims 1,6 and11 recite a carton to carry a plurality of containers. There is a bottom and top panel and sides. There is an exiting end having a tear line for forming a container dispenser. The tear line extends through the top panel at a distance spaced from and generally parallel to the exiting end. The tear line extends through each side end flap so that an opening for the containers is formed when the tear line is torn. The bottom end flap and the bottom portion of each side end flap remains attached to the carton to provide structural integrity to the carton.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

- 2. Holley, Jr. et al is cited showing in figure 5 another type of carton having a dispensing flap 25.
 - 3. Farquhar is cited showing in figure 2 another type of dispensing flap 22.
